

Guidelines for using Greenscreen

Wall Screen

- Touch up any marks left on the wall. Additional greenscreen paint is available in the IMA 305 paint room.

Rolled screens

- Remove carefully from the storage tubes, located in the Sound Stage.
- Use the green side only. Do not use the back side of the portable screens as flooring or wallpaper.
- Do not fold or bend the screens. Keep rolled or flat at all times.
- Must be rolled back up carefully and replaced into the storage tube and returned to the storage location under the tables.

*Note that if repainting screens, the paint must be thoroughly mixed for several minutes prior to use. It's very thick and rolls on slowly.

Fines will be levied if protocols not followed.

I have read and understand that these protocols are to be followed:
